NEW CREMATORY AT LAST

Authority Given for Constructing a Secord Plant.

NEAR NAVAL OBSERVATORY

Contractor Warfield Now Negotiating for a System-His Choice Subject to the Approval of the District Commissioners-Site Selected Is One First Chosen.

Garbage crematory No. 2, as noted in The Evening Times, of yesterday, is to be con structed at last, and it will be located or the site at the junction of C and Twenty third, and Upper Water streets, near the

old Naval Observatory.

Thus the prediction made in The Times of two weeks ago is to be verified. The Commissioners were asked yesterday after noon whether or not the decision had been made, and while not affirming the statement, they did not deny that the garbage contractor has authority to proceed in the matter of securing a system for introduction which will, schen approved by the board,

e located on the site above indicated-Contractor Warfield has been given the rivilege of choosing the method to be introduced, subject to approval of the board, and is at this time negotiating with the owners of the competing cremation systems for the purpose of making a selection.

ALL TO COMPETE. The Brown the Dixon, the Smith, and all others heretofore considered as "in the field" are to have a chance for the con-

indicated its approval, is the one originally indicated its approval, is the one originally selected, but purpose a good deal of opposition developed at the time. The site of which the board has finally

When it became known that a garbage crematory was to be erected there, property owners in that section followed the exupple of the South Washington Citizens Association, and protested vigorously. They urged that its presence would be a menace to health, prejudicial to property interests and exceedingly objectionable every 'standpoint.

Before the discussion ended Secretary Herbert filed an objection, personally, presenting his reasons against the proposition pon an occasion when the three Commis ioners were at the Navy Department in conference with him over business matters SECRETARY HERBERT'S PROTEST. It was said at the time, and with some

eason, that the Commissioners had been

nvited to call and that there was but one topic, and that the crematory location, under discussion at the conference-Whatever may have passed at that meetoutlined objections of sufficient force to ammand attention, and those objections. doubtless, had more to do with the tem porary abandonment of the site then than all things else combined, but if this be

true, the protest must have since been withdrawn. The accessity for a second crematory has been recognized from the beginning, and it was a part of the stipulations when the garbage contract was advertised that there hould be two or more constructed. plant now in operation was not expected to do the work of the entire District, and its capacity is equal to the consumption of about one-half only of the refuse collected

in the summer months. This has been tested since last May, and in the present arrangement for the construction of another is seen the purpos

of securing one more of equal force, and have them do the work next year. NOT READY TO DIVULGE. There were but two Commissioners on duty yesterday, President Ress being out of the city, and no board meeting was

held, but the two members present were each asked to confirm the rumor and give additional particulars. The reporter was informed that the board was not ready to The details as here given concerning

was not disputed. The last mentioned Commissioner stated, wever, that a board meeting would be held today, and a conference with Contractor Warfield early next week, when the matter will be considered. This is the

only official utterance upon the subject.
